

## 2018 Winter Conference and Annual Meeting

Tuesday, January 30, 2018 at the Salem Convention Center

7:00am	Registration Opens	2 <sup>nd</sup> Floor Foyer
<b>CONFERENCE PRE-SESSION: ANNUAL MEETING</b>		
7:30 am	Welcome and Opening Remarks	Willamette A
7:45 am	<p><b>Plenary: Where Do We Go from Here? and, What's Next for Coordinated Care?</b>  <i>Jeremy Vandehey, JD, Oregon Health Authority</i>  <i>Cyreena Boston Ashby, Oregon Public Health Institute &amp; Oregon Health Equity Alliance &amp; Health Share of Oregon</i>  <i>Seamus McCarthy, PhD, Yamhill Community Care</i>  <i>Jen Johnstun, RN, Primary Health of Josephine County</i>  <i>John Duke, MBA, Cascadia Behavioral Health (Moderator)</i></p> <p>The coordinated care model is about 5 years old in Oregon. At the CCO Oregon conference pre-session, panelists will be asked to reflect on the successes of the past 5 years and where we go from here, how may the coordinated care model mitigate the social determinants of health, and what do we envision for the next five years.</p>	Willamette A
8:50 am	Closing Remarks	Willamette A
<b>2018 WINTER CONFERENCE: INNOVATIONS IN PRIMARY CARE</b>		
9:15 am	Welcome and Opening Remarks	Willamette B/C
9:30 am	<p><b>Keynote Address: Dr. Nwando Olayiwola, RubiconMD</b>          Dr. Olayiwola will share her experience as a family physician and industry leader in primary care transformation. She will discuss how technological innovations can foster collaborative care and how to become a change agent in diversity and motivation for your organization.</p>	Willamette B/C
10:25 am	<b>CONCURRENT SESSIONS – ROUND 1</b>	
	<p><b>Adverse Childhood Experiences (ACEs): What are We Doing About It?</b>  <i>Dean Moshofsky, MD, Children's Health Alliance</i>  <i>Amy Stoeber, PhD, Children's Health Alliance</i></p> <p>Learn how the pediatricians of the Children's Health Foundation are addressing Adverse Childhood Experiences by providing a "vaccine" for preventing and mitigating the effects of ACEs and equipping care teams, community members, and families with tools they need to guard against the consequences of ACEs and current or future trauma.</p>	Willamette B/C
	<p><b>The Role of Family Support Specialists in Pediatric Clinics &amp; Integrating Traditional Health Workers in Primary Care</b>  <i>LaKeesha Dumas, Multnomah County</i>  <i>Ally Linfoot, Clackamas County</i>  <i>Edna Nyamu, Oregon Community Health Workers Association</i></p>	Croisan Creek A

	<p><i>Debra Catlin, Oregon Doula Association</i>  <i>Frances Purdy, MEd JD, Oregon Health Authority</i>  <i>Carol Criswell, Providence Child Center</i></p> <p>Pediatric and primary care clinics can reduce costs and improve care with streamlined systems and providing enhanced information and tools to the patients they serve. Traditional Health Workers and Family Support Specialists in Oregon can make a big difference. This panel will provide an overview of the existing infrastructure.</p>	
	<p><b>A Cross-Organizational Approach to Oral Health Integration in Primary Care</b>  <i>Britny Chandler, InterCommunity Health Network</i>  <i>Alyssa Franzen, DMD, Care Oregon</i>  <i>Alexa Jett, EPDH, CareOregon</i></p> <p>The Dental-Medical Integration pilot conducted by InterCommunity Health Network improved the coordination between medical and dental industries and provided the tools and education needed to address the correlation between oral health and diabetes. CareOregon identified priority populations (pregnant women and kids ages 0-5) and opportunities for infrastructure development by utilizing clinical best practice and a data-informed systems approach to integration.</p>	<b>Croisan Creek B</b>
	<p><b>A Case for Reverse Integration and the Role of Behavioral Health Homes</b>  <i>Renee Boak, MPH, CADC I, Cascadia Behavioral Healthcare</i>  <i>Brian Don, PhD, Cascadia Behavioral Healthcare</i>  <i>Jeffrey C. Eisen, M.D., M.B.A, Cascadia Behavioral Healthcare</i></p> <p>People with serious mental illness who utilize publicly funded services die 25 years earlier than their non-mentally ill counterparts. With integration of primary care and health and wellness services in the behavioral healthcare setting, Cascadia is improving health outcomes and satisfaction with care while reducing overall costs to the system.</p>	<b>Croisan Creek C</b>
<b>11:30 am</b>	<b>CONCURRENT SESSIONS – ROUND 2</b>	
	<p><b>Project ECHO: An Innovative Model for Clinical Team Education and Training</b>  <i>Maggie McLain McDonnell, MPH, Oregon Rural Practice-Based Research Network</i>  <i>Ron Stock, MD, Oregon Rural Practice-Based Research Network</i>  <i>Christine Bernsten, Health Share of Oregon</i></p> <p>Project ECHO is an innovative model to improve the skills and knowledge of clinicians and clinical teams. Learn about how Project ECHO works, the background of Project ECHO programming in Oregon, development of the Oregon ECHO Network, a few Oregon-based outcomes, and projects in development.</p>	<b>Willamette B/C</b>
	<p><b>Transforming Healthcare through Legal Intervention</b>  <i>Rachel Arnold, JD, MPH, Medical Legal Partnership of Oregon &amp; Health Share of Oregon</i>  <i>Laura Russell, JD, Metropolitan Public Defenders</i>  <i>Robert Trachtenberg, MS, Family Medicine at Richmond</i>  <i>Cheryl Coon, JD, Refugee Disability Benefits of Oregon</i></p> <p>Attorneys and healthcare providers can improve care and outcomes for vulnerable populations like the disabled, refugees, and immigrants by working cooperatively to support patients, decrease disparities, improve outcomes all while reducing the cost of care.</p>	<b>Croisan Creek A</b>
	<p><b>Addressing Systemic Barriers and Serving Transgender Patients in Primary Care</b>  <i>Amy Penkin, LCSW, OHSU Transgender Health Program</i>  <i>Christina Milano, MD, OHSU Transgender Health Program</i></p>	<b>Croisan Creek B</b>

	The OHSU Transgender Health Program provides safe, comprehensive, affirming health care for the transgender and gender nonconforming communities. The speakers will provide education, research and leadership that informs the health care needs of transgender and gender nonconforming people.	
	<p><b>Making Better Care Decisions Using Computer Simulation</b>  <i>Michael Johnson, Ph.D., St. Charles Health System</i>  <i>Mark Maul, CPhT, St. Charles Health System</i></p> <p>St. Charles Health System is a pioneer when it comes to utilizing predictive analytics to manage patient care and improve overall outcomes. This session will give participants the chance to learn how easily predictive modeling can be implemented at any healthcare institution.</p>	Croisan Creek C
12:30 pm	<b>Poster Session and Networking Lunch</b>	Willamette B/C
1:30 pm	<b>CONCURRENT SESSIONS – ROUND 3</b>	
	<p><b>Supporting Health Care for Children in Foster Care from Metric to Medical Home</b>  <i>Bobby Martin, Health Share of Oregon</i>  <i>Graham Bouldin, MSW, Health Share of Oregon</i>  <i>Madeline Lowry Woods, LCSW, Kaiser Rockwood Clinic</i>  <i>Carol Endo, MD, Randall Children's Hospital at Legacy Emanuel</i></p> <p>What is the role of the Health Care System in supporting the wellbeing of children in foster care? In 2015, a group of clinics and system partners set out to define and implement new models of primary care. A panel discusses the transformative journey that started with a challenging metric.</p>	Willamette B/C
	<p><b>Intimate Partner Violence in Primary Care and the Universal Education Approach</b>  <i>Tara O'Connor, PMHNP, OHSU Department of Family Medicine</i>  <i>Joan Fleishman, PsyD, OHSU Department of Family Medicine</i></p> <p>We will discuss how to promote and implement universal education, about how relationships can affect our health and the process of implementing an evidenced based strategy for screening for IPV in a primary care setting. We will share challenges and lessons learned during the early implementation period, as well as future directions.</p>	Croisan Creek A
	<p><b>Primary Care Screenings to Reduce Opioid Exposure in Vulnerable Populations</b>  <i>Paul Coelho, MD, Salem Pain Clinic</i>  <i>Josh Steenstra, MBA, Salem Pain Clinic</i>  <i>Emily Marshall, OSM IV, Salem Pain Clinic</i>  <i>Derek Titus, OSM III, Salem Pain Clinic</i></p> <p>In Oregon, more drug poisoning deaths involve prescription opioids than any other type of drug. Here we will present a validated screening tool for primary care providers which identifies a 'distress intolerant' phenotype that is vulnerable to opioid prescribing.</p>	Croisan Creek B
	<p><b>How Scribes Impact the Quadruple Aim</b>  <i>Scott Balzer, Samaritan Family Medicine Resident Clinic</i>  <i>Miranda Miller, Samaritan Family Medicine Resident Clinic</i>  <i>Robert Hughes, DO, Samaritan Family Medicine Resident Clinic</i></p> <p>Hear the results of a pilot evaluating the implementation of scribes within their clinic. In an on ongoing pursuit of the "quadruple aim", the implementation increased patient satisfaction, patient access, reduced physician burnout and increased quality of care while containing cost.</p>	Croisan Creek C
2:30 pm	BREAK	

<b>2:45 pm</b>	<b>CONCURRENT SESSIONS – ROUND 4</b>	
	<p><b>Addressing the Role of Nutrition in Patient Care</b>  <i>Michele Guerrero, RD, Yakima Valley Farm Workers Clinic</i>  <i>Lynn Knox, Oregon Food Bank</i>  <i>Katy Pranian, Multnomah County Health Department</i>  <i>Christine Mosbaugh, Benton County Health Department</i></p> <p>Food Insecurity is a key factor in chronic disease and other conditions. What is happening in Oregon to identify and address food insecurity? This session will present efforts to implement a food security screening, connect FQHC patients and their families to weekly deliveries from local farms, and integrate Registered Dietitians in primary care.</p>	<b>Willamette B/C</b>
	<p><b>Housing as a Pathway to Improved Health</b>  <i>Rachel Solotaroff, MD, Central City Concern</i>  <i>Sean Hubert, Central City Concern</i></p> <p>Central City Concern attracted national attention when it announced a \$21.5 donation from six area health systems to support 379 new units of affordable housing and a new clinic. This involvement in housing will bring health and security to thousands, and is changing the conversation on how health systems can strengthen communities</p>	<b>Croisan Creek A</b>
	<p><b>Transforming Clinical Care: Workforce Development &amp; Behavioral Health</b>  <i>Allison Whisenhunt, LCSW, Providence Seaside Hospital</i>  <i>Dawn Coglisier, FNP-BC, Options for Southern Oregon</i></p> <p>Two experiences of developing workforce processes and skills within existing care settings to meet the emerging needs of behavioral health and perhaps medically complex patients. Learn from the presenters about maximizing resources for optimal patient outcomes and leading a staff team through change management.</p>	<b>Croisan Creek B</b>
	<p><b>Implementing Integrated Behavioral Health in a Large Pediatric Practice</b>  <i>Douglas Lincoln, MD, MPH, Metropolitan Pediatrics</i>  <i>Erin Grady, PhD, Metropolitan Pediatrics</i>  <i>Audelia DeCosta, MSW, LCSW, Metropolitan Pediatrics</i></p> <p>Behavioral health is a critical part of high quality primary care for children. In spite of increasing needs, integration within pediatrics has been slow to be adopted. In this talk, providers from Metropolitan Pediatrics in Portland will discuss the why and how of behavioral health integration within a pediatric practice.</p>	<b>Croisan Creek C</b>
<b>3:45 pm</b>	<p><b>Plenary: Funding the Coordinated Care Model and Investing in Primary Care</b>  <i>State Senator Elizabeth Steiner Hayward, District 17</i>  <i>John McConnell, PhD, Center for Health System Effectiveness at OHSU</i>  <i>Donna Mills, Central Oregon Health Council</i>  <i>Laura Etherton, Oregon Primary Care Association</i>  <i>Evan Saulino, MD, PhD, Oregon Health Authority - Patient Centered Primary Care Program (Moderator)</i></p> <p>Panelists will discuss the outcome of Measure 101, the upcoming Legislative session, CHIP and Community Health Center funding, primary care investment, value based purchasing, and what Medicaid in Oregon would like under block grants and federal funding caps.</p>	<b>Willamette B/C</b>
<b>4:45 pm</b>	<b>Closing Remarks and Thanks</b>	<b>Willamette B/C</b>
