Panelist Topic 1

How does supporting families
and school-ready children
impact long-term health outcomes?

Panelist Topic 2

In your communities, what work is already happening to increase family support and improve child readiness for school?
How can we maximize existing work to achieve best results for our communities?

Panelist Topic 3

What investments have been made to support families and school readiness?

What additional investments and/or resources are needed?

Panelist Topic 4

What is the State's vision for engaging with and supporting community-facing initiatives at the local level to promote stable families and children who arrive at school ready to succeed?

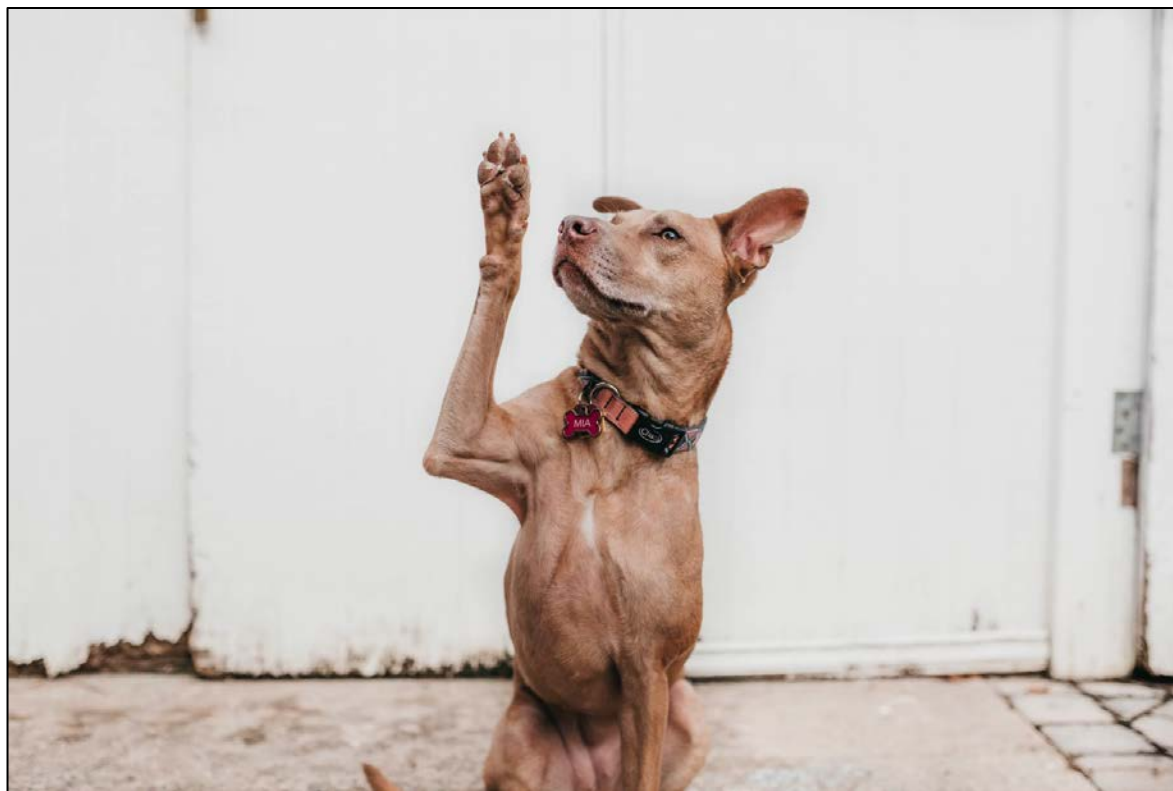

Panelist Topic 5

What are the most important ways that we partner with community-based organizations (CBOs) in supporting families and school readiness?
How do we share power with CBOs and empower them to influence us?

Panelist Topic 6

Where do you see opportunities to grow policy and resource investments on behalf of our children, families, and communities?

Questions or Comments for our Panelists?
